

# Live CERDAAC Demo

Enroll & Control Cloud for  
Highly Regulated Manufacturers

[www.cerdaac.com](http://www.cerdaac.com)

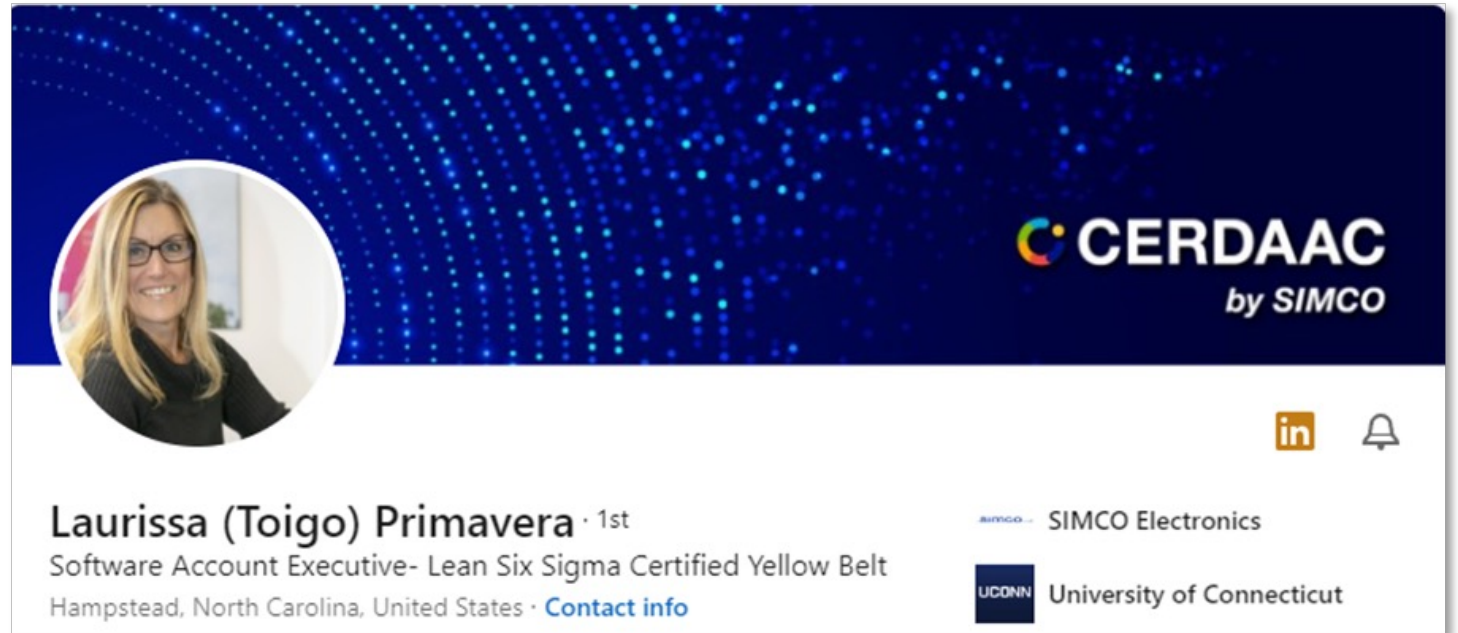

# About This Webinar

- Topic: Live CERDAAC Demo
- Webinar Link: [Webinar Registration – Zoom](#)
- Duration: 25 minutes + 5 Minute Q&A
- Audio: All attendees will be on mute during the presentation
- Q&A: Type your questions at any time during the webinar into the Q&A window, and we will answer your questions at the end of the presentation.
- Recording: The webinar will be recorded and the link to the recording emailed to all registrants within 1 week after the webinar.

# Agenda

- SIMCO Overview
- CERDAAC Overview
- CERDAAC Demo
- Q&A

Presenter:

# SIMCO Fast Facts

60

## **Years of service**

*(Founded as calibration lab serving NASA)*

3,000

## **Manufacturing customers**

*(Most in highly regulated industries)*

10  
of Top 10

## **U.S. Biomedical manufacturers**

*(16 of top 20 globally)*

9  
of Top 10

## **U.S. Aero & Defense contractors**

*(14 of top 20 globally)*

350

## **Employees**

*(Experts in Lean 6σ operations)*

25

## **Locations**

*(Headquartered in Silicon Valley)*

## Asset Management Suite for Highly Regulated Manufacturers

Unified suite of modular solutions that combine the capabilities of a CMMS + EAM

- **Calibration Cloud:** schedule and manage calibration services of critical assets
- **Maintenance Cloud:** schedule & manage maintenance to reduce downtime & increase availability of equipment along with parts inventory
- **Enroll & Control Cloud:** ensure assets are properly enrolled and managed throughout the lifecycle of asset
- **Facility Cloud:** digitize, optimize and standardize your facilities
- **Workforce Cloud:** ensure workforce readiness, safety and compliance
- **Partner Cloud:** ensure partner compliance and reduce risk
- **Product Traceability Cloud:** equipment and product traceability

# Our Customers

650+ Life Sciences Customer Rely on CERDAAC for Asset Management

**SIEMENS**

**stryker®**

**Abbott**

**TERUMO**

**STAAR™  
SURGICAL**

**Myriad  
genetics**

**curative**

**Pearl**

**VIEWRAY**

**BERKELEY  
LIGHTS**

**SOLTAMEDICAL®**

**WuXi AppTec**

# Asset Enrollment – Defined

Process of bringing new equipment into a regulated operation:

1

Define all equipment-related services – validation, calibration, preventive maint, etc.

2

Review with subject matter experts – metrology, engineering, quality, etc.

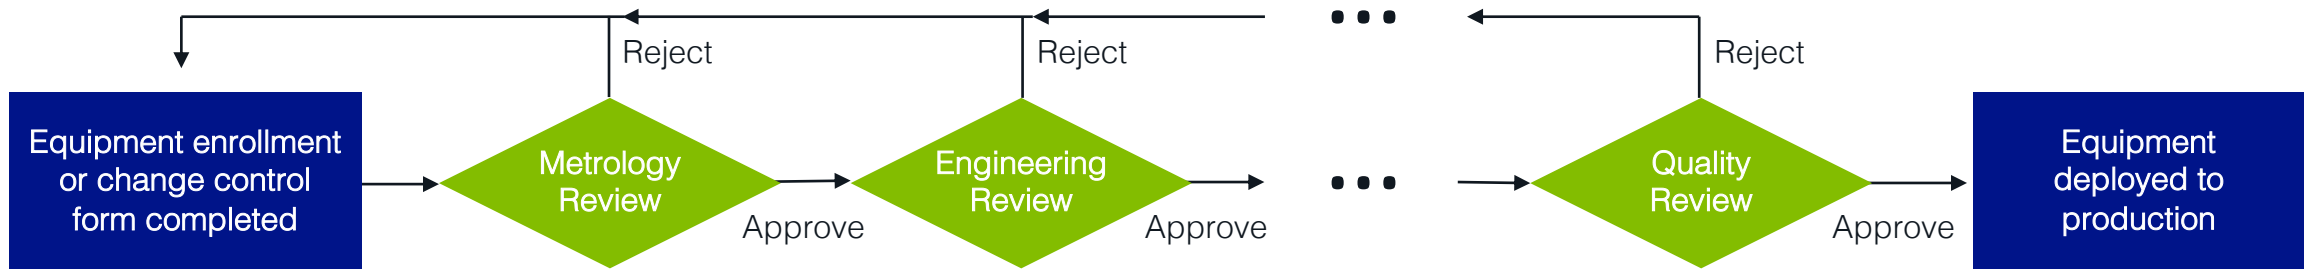

3

Document entire enrollment process and any subsequent change requests

4

Assign ID, print labels, enter in appropriate electronic systems, release to operations

# Asset Enrollment – Process & Problems

## Enrollment Form Problems:

- Required fields left blank
- Fields filled out incorrectly
- Data not normalized
- Difficult to extract / analyze data

## Review Process Problems:

- Unclear who needs to review / approve
- Multiple rounds of rejections
- Lengthy approval delays
- No visibility of approval status

# CERDAAC Enroll & Control Cloud

Digital asset enrollment & change control:

- ✓ End-to-end digital workflow with electronic forms, automated routing, and audit trails
- ✓ Full visibility of approval status, aging, etc.
- ✓ Greater workflow efficiency
- ✓ Accelerated asset deployment
- ✓ Improved compliance and simplified audits
